## SKILLS

### PROGRAMMING

C • C++ • Javascript • Typescript

### DEVELOPMENT

HTML • CSS • Javascript • React.js •  
Typescript • Node.js • Express.js •  
Tailwind CSS

### DATABASE

MongoDB • MySQL

## COURSEWORK

### ALL FREE COURSES

- Complete Web Development - By CodeWithHarry
- Complete C++ Placement Course - By Love Babbar (CodeHelp)
- A2Z DSA Course - By Striver (TUF)
- The Ultimate Javascript Course - By CodeWithHarry
- Complete React-Redux - CodeWithHarry
- TypeScript - By Thapa Technical
- DBMS, OS - By Lakshay Bhaiya (CodeHelp)
- Master Backend - By Rizwan Khan
- MongoDB Course - By Thapa Technical
- Tailwind CSS - By Hitesh Choudhary

## EXPERIENCE

### PSI ENERGY | FULL STACK INTERN

August 2023 – September 2023 | Remote

- Tech Stack Proficiency: Developed skills in React.js, Typescript, and Tailwind CSS for building modern web applications.
- Full-Stack Contribution: Worked on both frontend and backend components, including creating models and API endpoints using Node.js.
- Profile Info Section: Designed and implemented the user interface and backend functionality for a profile information section.

## PROJECTS

### OLDARYACONNECT | MERN STACK | [Link](#)

September 2023 – November 2023

- Developed a versatile MERN stack-based platform, "oldaryacconnect," facilitating access to a wide range of notes catering to university exams, Data Structures and Algorithms (DSA), and various tech stacks.
- Engineered a robust Lost and Found feature enabling users to report lost or found items with a secure and confidential communication system where responders can interact with the item poster while maintaining privacy.
- Developed a mechanism for item posters to evaluate responses, granting access to claimer's contact details upon acceptance, thereby facilitating safe item retrieval.

### SORTTHEALGO | REACT.JS | [Link](#)

April 2024 – May 2024

- SortTheAlgo project visualizes various sorting algorithms using React, providing an interactive visual experience to understand sorting algorithms visually.
- It dynamically illustrates algorithms like Quick Sort, Merge Sort, Insertion Sort, Selection Sort and Bubble Sort, enhancing comprehension of data structures and algorithms through visual representation and making it easier to understand.

### PORTFOLIO | REACTJS | [Link](#)

May 2023 – May 2023

- Built an interactive portfolio with React.js showcasing my skills.
- Implemented responsive design for seamless user experience across devices using CSS and React.js.
- Integrated email message dropping to contact me using Emailjs

## ACHIVEMENTS

- LeetCode - 700+ Questions (3 Stars and 1840+ Rated).
- TCS Codevita Season 11 Round 1 Qualified with 1100 Ranking.
- Leetcode 365+ Days Consistency of solving Daily problems.
- Codechef 3 stars (1600+) rated.
- Development - Aggregate 10+ Projects (Minor + Major).
- University Exams - Aggregate 9.1 CGPA till 5th Semester.
